

ShowerGuard Glass

There's more to glass than you can imagine!

ShowerGuard glass stops corrosion before it starts

- Its surface is permanently sealed during manufacturing with a patented ion beam process.
- Unlike spray-on or wipe-on treatments that eventually wear off, the protection provided by ShowerGuard glass is part of the glass itself, so it never needs to be re-applied.
- With just a minimal amount of cleaning, ShowerGuard glass will stay beautiful for years to come.
- ShowerGuard glass is backed by a 10-year limited warranty.
